

INDIVIDUAL PACKAGING RECOMMENDATIONS

VCI Corrugated Box

IDEAL FOR: brakes
clutches
pumps
kits
electric motors
auto service parts

For repetitive packaging applications such as brake parts packed into corrugated boxes, ARMOR SHIELD® VCI Corrugated is an excellent fit. Simply place clean metal part into box, close, and seal.

All ARMOR SHIELD® VCI Corrugated boxes have a VCI lining on the interior insuring proper displacement of VCI to enclosed metal parts.

Please note that these recommendations are based upon "Best Practices" developed by ARMOR Protective Packaging® professionals in conjunction with our customers. Since every situation is different, ARMOR recommends conducting a "real life" test shipment for best results.
