CLASS O: PRO-STREET

CLASS P: AMERICAN MUSCLE '64-'74

**CLASS Q: AMERICAN MUSCLE
'75 & OVER**

CLASS R: TRUCK/SUV PRE '70

CLASS S: TRUCK/SUV '70 & OVER

CLASS T: MOTORCYCLES

CLASS U: RAT RODS

CLASS V: SPORTS CARS

CLASS W: SPECIAL INTEREST

THE FOLLOWING ARE AWARDED BY THE OFFICIAL JUDGES

BEST PAINT • BEST ENGINE • BEST INTERIOR

JUDGES' CHOICE • VETERAN'S AWARD • BEST IN SHOW

CLASS LIST DEFINITIONS

STREET ROD: An automobile manufactured prior to 1949 that has been altered, modified or modernized for travel on today's highways. It is a non-racing vehicle enhanced for safety, appearance and interior amenities.

MODIFIED CAR: Any vehicle that has been altered to improve its performance (such as major engine enhancements, replacements or additions) or its appearance (such as alterations to body style using aftermarket accessories, custom paint work).

ORIGINAL: Is a vehicle that has been maintained both aesthetically and mechanically without the replacement of any parts or pieces. The repairs that have occurred are few and far between, and whenever possible, parts needing maintenance have been fixed rather than replaced.

RESTORED: Restored vehicles are classic cars that have been refurbished to their factory specifications using original factory parts. "New old stock" or NOS, are parts that are old, but have never been sold at retail. While many of these parts can be located, the cost, time involved and availability of some parts make it a daunting task. Therefore, many vehicles are restored using new parts that have been manufactured to the original specs. For a "restored" car, the end goal is to repair and refurbish the vehicle so that it looks and operates exactly the same as the day it rolled off the assembly line.

FOREIGN CARS: A foreign car, or import car, is a car of any year that has parts made and assembled outside the US, such as Volkswagen, Nissan, Ferrari, Lamborghini, Rolls Royce, BMW, Mercedes Benz, Porsche, Honda, Mazda, etc.

PRO STREET: Pro Street is a style of street-legal custom car popular in the 1980s, usually built to imitate a Pro Stock class race car. Pro Street cars should appear to be more at home on the drag strip than the street, while remaining street legal and not gutted like a Race Car or Bracket Race car. Pro Street cars always feature two of the following three:

- A highly modified, with supercharger or turbo, large capacity V8, V12, V10, V6, 16 engine.
- A narrowed rear axle coupled with oversized rear wheels & at least a 14" wide tire (located within the wheelwells) for maximum grip and wheelie bars
- An NHRA legal roll cage.

CLASSIC AMERICAN MUSCLE CAR: The original "tire-burning" cars, such as the Chevrolet Camaro, AMC Machine, Buick Gran Sport, Dodge Charger R/T, Ford Mustang, Oldsmobile 4-4-2, Plymouth GTX, and Pontiac GTO, Dodge Coronet, Ford Ranchero 500, Chevy El Camino, Mercury Cyclone, Ford Galaxie, Chevy Corvette, Plymouth Hemi Superbird, GMC Caballero Diablo Truck, Ford Torino, AMC Hornet, Chevy Chevelle, Plymouth Fury, Chevy Malibu, Pontiac Firebird, Buick GSX, Old Cutlass, Pontiac Tempest Le Mans, Plymouth Hemi Cuda, Shelby Mustang, Olds Rally.

TRUCK: A pickup truck is a light-duty truck having an enclosed cab and an open cargo area with low sides and tailgate.

MOTORCYCLE: A two- or three-wheeled vehicle powered by a motor (no pedals) and steered by a handlebar from a saddle/seat.

RAT ROD: A non-traditional style of hot rod customized to imitate or exaggerate the look of hot rods of the 40s, 50s and 60s. Typically has an unfinished, patina or rough appearance and is not intended to be an accurate recreation or replica.

SPORTS CAR: A small, low-to-the-ground vehicle that generally includes only two passenger seats and is designed for quick acceleration, precise steering and high-speed driving.

SPECIAL INTEREST: Any vehicle not included in any class listed above.
