

ERADICATORS OF RUST

RUST PREVENTION & REMOVAL

SHOW RUST WHO'S BOSS

At Armor Protective Packaging® we bear the title of “Eradicators of Rust” with pride. We offer a product line designed to keep metal parts rust-free and protected, saving the time and resources to rework or replace them. Better yet, ARMOR rust prevention/rust removal products are not only clean, safe and easy-to-use, they are easy on the environment. ARMOR is Mother Nature-approved for saying “no” to messy oils, grease or hazardous RP sprays, and saying “yes” to the use of recycled content, renewable resources and source reduction in its product line.

ARMOR VCI – Our Secret Sauce is Your Secret Weapon

ARMOR VCI Nanotechnology™ is the “secret sauce” we combine with materials like Kraft paper and poly film to create packaging supplies with the added benefit of rust prevention. When a metal part is wrapped or enclosed in an ARMOR VCI product, the VCI vapors form a protective shield on the surface of metal that displaces moisture and prevents rust.

ARMOR VCI products protect your metal parts, your bottom line and the environment, and they do what ARMOR does best: “Take the Work Out of Your Workday!”
