

RUSTIMONIAL

TAKING THE WORK OUT OF YOUR WORKDAY™

ARMOR SOLUTIONS SAVE CUMMINS \$130,000 PER YEAR

Armor Protective Packaging® worked with the CEP Cummins Engine Plant to develop a better rust prevention solution for its engine blocks/engine heads. The result saved Cummins \$130,000/year.

BEFORE

THE FACTS

Competitor Rust Prevention Process:

- 2 Medium-Sized VCI Bags
- 4 VCI Foam Pads
- 4-5 Sprays of messy RP for each pallet
- Labor-intensive application process

AFTER

THE RESULTS

ARMOR Rust Prevention Solution:

- 1 ARMOR POLY VCI Bag
- ARMOR WRAP VCI Paper
- 12% Savings in materials
- 30% Reduction in labor

ANNUAL COST SAVINGS: \$130,000

Armor Protective Packaging® provides clean, safe, easy and effective rust prevention and rust removal products that are designed to protect metal while in-process, during transport or in storage. For more than 35 years, ARMOR has worked with customers from around the globe to provide rust prevention and rust removal solutions to "Take the Work Out of Your Workday!"
