ARMOR SHIELD® VCI FOAM PADS

These soft and adaptable ARMOR SHIELD foam pads are ideal VCI emitters for any metal part that needs cushioning as well as VCI protection. They also offer a non-fibrous alternative to VCI chips or VCI paper when paper fiber contamination is of concern. ARMOR SHIELD foam pads are polyurethane pads impregnated with ARMOR vapor corrosion inhibitor--VCI Nanotechnology™. Offered in standard sizes and in perforated sheets, ARMOR offers multiple options to customize these foam pad emitters to meet the demands of any small or unusual sized space.

VCI FOAM PAD BENEFITS

EASY-TO-USE

VCI-impregnated and malleable to any location

CONTINUOUS PROTECTION

up to 3 years protection

SAFE

non-toxic, no messy oils/greases

CLEAN

no fiber or dusting

CORROSION MANAGEMENT SOLUTIONS

ARMOR SHIELD® FOAM PADS APPLICATIONS

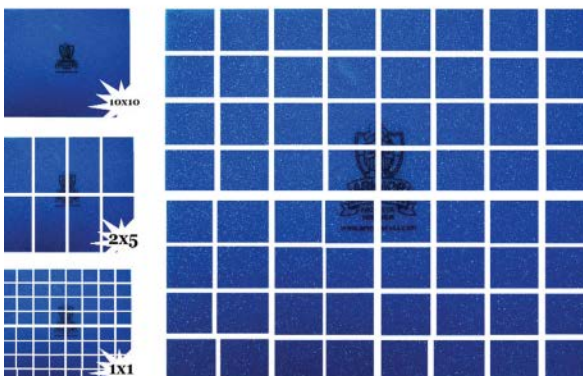

VCI foam emitter pads are ideal for small, unusually shaped or sensitive parts in need of cushioning and corrosion protection. Offered in multiple sizes, uses for foam emitter pads include small, enclosed spaces, packing of electronic components or other delicate metal parts, domestic and export shipment, inventory storage, in-process operations, or long-term storage.

ARMOR EXPERTISE

With more than 35 years in the business, Armor Protective Packaging® offers a full line of corrosion inhibiting VCI products that are clean, safe, easy to use and extremely effective.

ARMOR people and VCI solutions protect products and brands.

PERFORATED FOR EASY SEPARATION

Allows you to construct the ideal size for your needs.

RANGE OF PROTECTION OPTIONS

- 10" x 10" x 1/4" protects up to 8 cubic feet per pad
- 2" x 10" x 1/4" protects up to 2 cubic feet per pad
- 2" x 5" x 1/4" protects up to 1 cubic foot per pad
- 1" x 1" x 1/4" protects up to .25 cubic feet per pad
