

ARMOR SUCCESS STORY

Customer:	Export Packagers
Type of industry:	Export packaging
Previous Rust Preventative Method:	Previously had used oils and liquids to prevent rust.
Problem:	Oils and liquids required high labor to apply and remove. Frequent leaking of oil and liquids during shipping process. If oil was not applied fully, often resulted in rust.
Metal-Part(s) Involved:	Various: equipment, painted surfaces, bare metal, electronics, machined metal all of high value
Solution: Products:	ARMOR POLY® Heat Shrink Film 20' x 100' sheeting ARMOR Crusader™ VCI Film Dry Coat™ Rust Preventative (dries to touch) ARMOR SHIELD® Desiccant ARMOR SHIELD® VCI Foam Pad Emitters
Cost Savings:	Saved labor on applying and removing oils. Results are consistent and clean packaging process and ready to use product upon receipt.
ARMOR Rep:	Jerry Golebiewski/David Yancho
