

ARMORWRAP

RUST PREVENTION VCI PAPER

WRAP OUT RUST

Wrap Out Rust with ARMOR WRAP® – a VCI paper designed specifically to keep ferrous and non-ferrous metals corrosion free. We combine ARMOR VCI Nanotechnology™ (a.k.a., our “secret recipe” for vapor corrosion inhibitor) with neutral pH Kraft paper and the result is rust-preventing magic -- ARMOR WRAP VCI paper.

Wipe away the mess and hassle of oil- and grease-based RPs with ARMOR WRAP VCI paper's clean, dry and easy-to-apply approach. Simply wrap or enclose metal parts in ARMOR WRAP and the VCIs activate to form a shield of protection on the surface of metal that displaces moisture and repels rust. Better yet, ARMOR WRAP has VCI on BOTH sides of the paper (different from the one-sided format manufactured by most VCI companies) to ensure that it is virtually goof-proof to apply.

ARMOR WRAP BENEFITS

- **EASY-TO-USE:** VCI on both sides of the paper simplifies application
- **CONTINUOUS PROTECTION:** provides up to 3 years rust-free protection
- **SAFE:** rust prevention free of oils, solvents or other harsh chemicals
- **CLEAN:** environmentally friendly, recyclable, repulpable and renewable
- **TRUSTED BY U.S. MILITARY:** ARMOR WRAP 30M/60M has been military-approved since 1983
- **SOLO OR TANDEM USE:** use alone or pair with other ARMOR VCI products for extended protection
- **SEVERAL OPTIONS:** available in cut sheets or rolls, waxed, reinforced or poly coated
- **GLOBAL STANDARD:** meets all REACH and RoHS requirements

TAKING THE WORK OUT OF YOUR WORKDAY

ARMORWRAP

RUST PREVENTION VCI PAPER

VCI PROTECTION THAT GETS A GREEN THUMBS UP!

ARMOR WRAP VCI paper is recyclable and you don't have to be an environmentalist to recognize that recycling is one of the best ways to positively impact the environment and our human race. It reduces the pollution caused by waste and it also reduces the use of raw materials and the energy required to produce and process them.

In addition, ARMOR WRAP VCI papers are both a renewable and sustainable resource. Paper is made from wood, a natural and renewable resource that can be planted, harvested and replanted. Paper sustainability in the USA has increased due to the use of renewable biomass and advances in papermaking technology.

All items on the Stock & Ready® product list are in-stock and ready-to-ship with no order minimums.

Stock & Ready® orders placed by 1 p.m. EST will ship by next business day.
