

ARMOR SILVER SHIELD™

Anti-Tarnish Packaging for Silver and Other Noble Metals

Silver Shield™ Paper
stops corrosion before
it starts!

Tarnish can diminish the look of silver and other noble metals, as well as threaten the connectivity in instruments such as circuits, switches and wiring. If you want to preserve the look and productivity of your noble metals, ARMOR Protective Packaging™ is on guard to serve and preserve!

Silver Shield™ prevents tarnish and maintains the metal's true finish. This neutral pH paper absorbs hydrogen sulfide vapors, which causes corrosion and tarnishing. Simply wrap or interleave your silver or silver-plated items in the Silver Shield™ paper and store for years of protection! For an even more economical and effective preservation form, ask about Silver Shield™ paper bags available in standard sizes.

Q

Have you experienced tarnish on your silver, gold or other noble metals?

Q

Do you have silver products that are in long term storage or export situations?

Q

Are you looking for an alternative to liquid dips or tarnish removers?

A

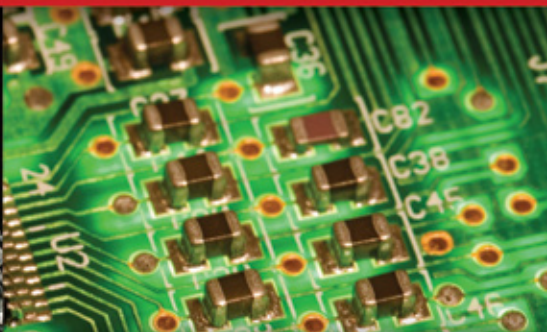

Silver Shield™ is the anti-tarnish solution for your precious metals. It stops corrosion before it starts.

armorvci.com

Silver Shield™ Applications for Commercial and Consumer Uses

COMMERCIAL USE

Circuit Boards • Electrical Components • Computer Chips and Accessories • Jewelry • Silver-Plated Glass (designed for low emissivity)

CONSUMER USE

Jewelry • Silver, Gold and other Noble Metals • Silverware Family Heirlooms & Collectibles • Coins • Musical Instruments

Original packaging of silver materials can eventually create an environment for corrosion, as they are usually not designed for long term storage. Silver Shield™ is designed for extended storage and safe for direct contact situations since it will not cause discoloration or staining. Silver Shield™ is a non-toxic product, so there is never a cause for concern if used for protecting flatware, serving pieces or jewelry.

ARMOR Protective Packaging is an industry leader in providing a full line of corrosion inhibiting packaging products for a wide variety of manufacturers. Contact ARMOR at www.armorvci.com to find out about our other VCI products.
